CLARINS

# Clarins, professional beauty products inspired by Institute treatments.

## A unique experience

Almost 70 years of practical experience in beauty Institutes, remarkable application methods that with proven effectiveness, an exceptional knowledge of men and women's beauty concerns, all of these have built the foundation of Clarins success.

## Clarins, a pioneer in beauty from plants

Clarins has always favoured ingredients of natural origin. In its laboratories, experts, biologists and cosmetologists analyze and test the properties of thousands of plants for the same reason: use the highest quality plant extracts in their most effective concentration for optimum beauty results.

Today, Clarins products are sold in 150 countries and count millions of loyal clients around the world. A loyalty that owes nothing to chance...

## Eau Dynamisante, at the heart of nature.

A unique blend of a fragrant combination of essential oils and 7 plant extracts.

### Great fragrance!

Clarins excels in the art of using the aromatic and sensorial powers of essential oils...

With its bouquet of citrus, cypress and delicate woody notes, Eau Dynamisante perfectly symbolizes this expertise. Its a fragrant combination of orange, lemon, lavender and patchouli's essential oils give it a fresh, exhilarating scent which is subtle yet lingering and which revitalize, lifts the spirits and energizes.

### Great feeling!

Beyond fragrance lies skin care. The aromatic properties of the essential oils in Eau Dynamisante are combined with the benefits of non-fragrant plant extracts taken from traditional medicine. Extracts of ginger and ginseng energize. Aloe provides hydrating benefits, horsetail tones and firms and ispaghul softens... to create a wonderful natural cocktail that instantly restores the skin's vitality, freshness and firmness.
